Hangers / Atriums / Malls / Event Centers / Manufacturing / Warehouses / Government / Athletic Facilities

©AIRIUS LLC Aug 2006

US and FOREIGN Patents Pending

*Noise is tested in accordance with ISO-3745 and ANSI 12.35 in an echo-free room with background noise lower than 15 dBA. The testing cooling fan runs in free airflow and a noise meter is set to 1 meter away from air entrance and at 90 Degrees to the fan. The test result is depicted with sound pressure level frequency band in dBAs.
