## SECTION 7: HANDLING AND STORAGE

### **7.1 Precautions to be taken in handling and storage:**

Store in a cool, dry place.

### **7.2 Handling:**

No special handling instructions due to toxicity.

This product contains limited amounts of residual monomer. Under normal handling and use conditions the residual monomer should not present a hazard. In storage the monomer will migrate from the emulsion an equilibrium between the headspace in the storage container and the liquid emulsion. Levels in excess of acceptable exposures can accumulate in non-vented headspaces above the emulsion. All procedures appropriate for a confined space entry should be completed prior to performing any work in a bulk storage tank.

## SECTION 8: EXPOSURE CONTROL / PERSONAL PROTECTION

### **8.1 Engineering Controls:**

Good ventilation should be sufficient to control airborne levels.

#### **Ventilation:**

No exposure limits exist for the constituents of this product. No engineering controls are likely to be required to maintain operator comfort under normal conditions of use.

### **8.2 Personal Protection Equipment:**

#### **Respiratory Protection:**

No respiratory protection required under normal use conditions.

#### **Skin Protection:**

Not normally considered a skin hazard. Where use can result in skin contact, practice good personal hygiene. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work.

#### **Eye Protection:**

Chemical goggles while handling. Glasses with side shields for general use.
